2. Use of professional tone and style
3. Content accuracy
4. Application of proper grammar and punctuation
5. Clarity and conciseness
6. Organization and structure of the report
7. Integration of numerical data and the narratives

Assignment

Assume you are a recently hired accountant working for Markot Ltd a business consulting firm with a number of local and international branches. The Chief finance officer Elizabeth Konde calls you into her office with a request. She has been asked to participate in a companywide training on tax implications of Uganda's 2026/2027 tax amendments. She asks you to research the topic with particular emphasis on the change in rates of income tax for individuals. She

would like to know the implication of those amendments on the employees' earnings and employers at large. She is not asking you to take a position on whether the amendments are bad or good but instead, a balanced report on the topic.

Ms. Konde has asked you to research the topic and prepare a report for her which she will use to help her prepare for her participation in the training. Respond to her request.

(Maximum score = 35 Marks)
